horse racing gamble win is based on the author s 25 plus years in gambling and betting on thoroughbred horse races he has bet on horses in the u s canada mexico england germany the middle and far east he has bet at tracks and race books and has been computer betting for the last dozen years he has bet and won on fast surfaces on turf and on wet or even muddy tracks if you want to bet to win follow the system that has worked for over 25 years and you can bet like a pro too it is easy to understand and easy to follow betting on the horses becomes clear and easy when you follow the system it will not automatically show a profit on any one specific day it may even show red figures for a few days but over a minimum of say 35 40 races it will be in the black profit column and you will be able to gamble and win at horse racing regularly the author s records show a consistent long term return on investment roi of about 1 24 that means that every dollar bet or gambled has returned a profit of 24 immediately in cash watching and wagering on beautiful thoroughbred horses is one of the world s most popular sporting activities by using this special report readers will be able to gamble and win chapters include information on betting on the horses gambling winning and following the system how to pick races to bet what odds you need to make a good bet how to bet to win place or exotic computer betting how much to bet using the effective kelly criterion formula the types of races maiden claimer handicap etc importance of jockeys trainers weights equipment changes forms to use for your horse racing notes horse racing gamble win is a proven and profitable system for betting on the horses

this book is designed for new horse race players who want to go from beginning to winning the information contained in a question and answer format explains the basics of wagering on horses how to place a wager and strategies for picking winners the author has been playing the horses for over 40 years and offers insights that even the most sophisticated players may not know

introductioni must thank you for buying my book and appreciate any comments on the system i have inserted my email address at the end of the book plus feel free to email me if you have any questions or need any help this horse racing system took me approximately 12 months to computer model and test primarily around uk handicap horse races this would have not been possible without my 10 years database of horse form and my i t computer skills uk handicap horse racing fascinates me i find it a great puzzle

to solve and love form variables like weight official rating and many more this uk horse racing system has four simple steps that find winners daily and i have outlined tips to get more profit i like using this system for betting singles and doubles which are lethal and produce massive profits in the book i have covered a horse race in extensive detail so that you understand the system and how to apply the horse racing system to each race quickly and thus finding winners easily i suggest that you make yourself familiar with each step of the system before you start placing bets i have included 100 s of horse racing result examples that the system produced for the flat and jumps season 2019 2020 so you can back check these results to ensure you understand it in other words you can apply the system on these past results i have outlined using the racing post on the internet and my system with this suggested approach you will become more confident when placing bets or trades on your selections note try to keep away from stupid lucky15 bets and large accas etc these are silly bets for recreational punters who bet with bookmakers at cramped odds i wrote this book to help fellow punters and traders to get an edge i hope you enjoy this one

this book contains the best sports and horse racing betting systems from ken osterman previously published in two separate books sports and horse racing betting systems that work and more sports and horse racing betting systems that work these are systems that ken osterman has used successfully at race and sports books the rules for each system are clearly explained so it is understood why they work tips for improving these systems are also provided there are 10 systems in the first half of the book that cover horse racing football and baseball here is a list of the systems with the sport that is covered and the title of the system horse racing quarter horse the hidden speed horse angle thoroughbred best jockey long shot method thoroughbred bet the fastest horse thoroughbred show a profit down under harness the qualifier advantage harness morning line overlay sports betting nfl football the injured star nfl football the hat trick baseball the aaa surprise baseball the underdog advantage the second half of the book continues with more horse racing systems and then expands the offering of sports betting angles with a profitable method for nhl hockey that focuses on underdogs playing on the road his other method involves a fascinating angle on college basketball in fact this method does not involve handicapping teams at all you are handicapping the betting public so you don t need to be an expert to use this system there are plenty of examples that allow you to follow this method in step by step fashion here is the list of systems included in the second half of the book horse racing the quarter horse speed index

method the b6 sprint system for thoroughbreds the quick rating method for harness racing betting favorites using the modified d alembert betting method sports betting the nhl road dog method college basketball the betting odds analysis method

the author s aim is to provide in this book the latest information on winning at one of america s most popular spectator sports he covers the main methods of winning by using such concepts as pace speed trip and bias handicapping as well as offering his own new method the book is intended for both beginners and experienced gamblers

how to take advantage of recurring patterns in the results of horse race basic principles that govern racing results and the betting market mistakes commonly made by the general betting public and how to exploit them full details of betting systems used by professional gamblers that have made them millions how to predict and profit from new trends how to use computers to increase your returns from betting

this uk and irish handicap horse racing betting system contains 4 simple steps to identify potential winning horses in a horse race i wrote this system so that busy punters using the excellent racing post on the internet for free can find profitable horses quickly in handicap horse races i like this book because i have added some optional extra filters to the horse racing system to improve the quality of selections and to achieve a better strike rate i have written numerous books on horse racing but this is my favourite and most profitable uk and irish horse racing system

a quote i love horse racing betting systems i repeat this quote in many of my books sorry for being boring i have to cover this early in the book as i believe this is probably overlooked by most punters who continue to lose every day please look at the quote below and ponder on this for 5 minutes and ask yourself a question do you actually do this we are looking for a winner in a race not the winner of a race remember the above quote as most punters fail to understand this quote and this is why they lose money most punters look at the race cards looking for the winner of the race they should be looking for the winner in a race you have to be confident you have spotted a potential winner in a race not of a race you have to be prepared not to have a bet on days when there are no winners in a race remember this chapter it will serve you well non handicap horse races most of my uk horse racing system books have

centered around uk handicap horse races this system focuses on non uk handicap races i will explain why i opted for these types of races in handicap races horses are allotted weight in relation to their ability so the best horses are allocated more weight so as to give the inferior horses in the race a chance of winning it is that simple weight is a leveller it slows horses down but it is not that simple as horses can be cleverly placed in races i won't say much more on this but i think you get the point in non handicap uk races it is easier to assess horse form as we do not have to worry about the weight allotted to a horse it's always difficult picking winners for handicap and non handicap races so we must not get complacent let us now look at this brilliant uk horse racing system

i graduated from university with a computer science degree many years ago when a degree meant something i was always interested in horse racing and was fascinated in solving the uk horse racing form puzzle i started my own computer business in my early 20's where i made good money and travelled across europe it was at this point in my life i decided to start a horse tipping business where i had weekly full page colour adverts in the racing post at 2k per advert and offices i left the running of this horse tipping business to staff who were responsible for all parts of the business while i concentrated on my computer business in my late 30's around 1990 i decided to use my computer skills to computerise and model uk horse racing form using a database built with 10 years of detailed horse racing form it was over a period of 2 years that i concentrated my efforts on uk handicap races in conjunction with the betting exchange betfair this is where i believed maximum profit could be gained the computer model allowed me to process 100's of handicap races per day and then formulate my system tweeking a horse's weight and bhb or official rating i must confess this was a difficult puzzle to crack even with a computer program that i wrote to crunch the data i eventually found the correct weight and bhb rating for a horse based on its last performances in handicap races this ebook outlines this system and can be manually applied easily using the racing post on the internet

like all professional bettors i experienced the ups and downs of betting over a very long period of time and without realising it my betting evolved into something more mechanical and mathematical my strike rate improved further when i followed logical predetermined criteria before placing a bet it improved again when i finally accepted that keeping honest betting records is an absolute prerequisite finally i brought under control everybody s arch nemesis i managed to shackle the emotional and disciplinary aspect of betting i use the word shackle because the emotional and disciplinary never goes away it is always there lurking in the shadows i then accepted the way one deals with the emotional aspect of

betting bridled with sound money management determines how successful one is at betting racing is all about opinions the ebook contains obvious assertions and some not so where we can expect many bettors to disagree but the hope is to convey a certain pertinence in areas not generally recognised
